Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Thursday 19 Aug 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rather cloudy and damp. Some brighter intervals developing Friday.

This Evening and Tonight:
Remaining rather cloudy and damp overnight, with a little further light rain and drizzle possible, mainly affecting the Pennines. Limited cloud breaks may allow some low-level mist and fog patches to develop later. Minimum temperature 10 deg C (50 deg F).

Friday:
Starting damp in places, and while staying on the cloudy side throughout, some limited brighter intervals may develop for a time. Becoming overcast and breezy later, ahead of evening rain. Maximum temperature 22 deg C (72 deg F).

Outlook for Saturday to Monday:
Rather cloudy with some rain likely over the weekend, perhaps becoming heavy and prolonged before easing later Sunday. Becoming drier, brighter and warmer to start the working week.
